**A Natural Source of Calcium**  
**as a foliar nutrient**

**GREAT FOR VEGETABLES, FRUITS, HERBS & FLOWERS**

Net Wt: 6 oz / 170.10 g

Made in:

# CalCarb

## FOLIAR BOOSTER

Calcium is critical to the nutrient health of your plant, contributing to the strength of cell membranes and regulation of nutrient use. Calcium is known to play a major role in many crops, including peppers, tomatoes, and watermelon. It is also able to reduce the effect of heat stress in plants. Calcarb foliar booster works great in both indoor and outdoor environments.

- Foliar Booster
- Natural Source of Calcium
- Great for Vegetables, Fruits, Herbs, & Flowers
- For Indoor & Outdoor Use

#### GUARANTEED ANALYSIS:

Calcium (Ca).....31.00%

#### Established Plants

#### Flowering & Fruiting Plants

### FOR INDOOR AND OUTDOOR USE

#### FOLIAR SPRAY

Add 1 tsp per quart (liter) of water (1 tbsp per gal) into sprayer. Mix well. Spray foliage focusing on underside of plant leaves. Repeat weekly.

- \* Note Calcarb leaves a beneficial white residue of natural calcium. It may be rinsed off after 36 hours, but left on will achieve best results
- \* Calcarb is best applied alone, wait 36 hrs before applying other foliar nutrients.
- \* Clean sprayer after every use

#### FOLIAR SPRAY

Add 2 tsp per quart (liter) of water. Mix well and add to sprayer. Spray focused "pop-shots" on the underside of outermost leaves. Calcarb need only be applied to 6-12 leaves. No need to saturate entirety of foliage. Avoid fruits and flowering bodies.

**Net Wt:** 6 oz / 170.10 g

Expiration:
