

VERSITY[®] BACILLUS BLEND

Versity is a ready to use dry blend of multiple beneficial species of *Bacillus* bacteria enhanced with kelp and humic acid. Our blend is specifically selected to increase the population of beneficial microbes in the root zone while promoting vigorous plant growth. These microorganisms are some of the primary agents responsible for breaking down organic material and cycling nutrients. Among the *Bacillus* strains contained in this blend are species capable of solubilizing phosphorus and potassium.

- Beneficial Bacteria
- Increases Phosphorus & Potassium Solubilization
- Great For All Types of Growing Media & Fertilizers
- Will Not Burn If Used as Directed
